ACCESSORIES

Press Release

Based on the popularity of our 3-dimensional medium, Glossy Accents™, Ranger is pleased to bring you three additional Accent products! Each of these products can be used to accent and protect rubber stamped images, decorative cardstock, clip art, die cuts, ephemera, stickers, chipboard letters, jewelry blanks and bottle cap art. Great for paper crafters, card makers, scrapbookers and altered artists. All dry to a hard transparent finish, and also work as a glue.

Matte Accents™ is a non-glossy, dimensional medium. Gives a subtle, dry embossed look on paper, metal, plastic, glass and wood.

Crackle Accents™ is a one-step, dimensional, gloss medium that dries to a cracked finish. Create crackled looks on most porous surfaces.

Sepia Accents™ is a brown-toned, dimensional gloss medium. Gives an aged, antique look to projects on paper, metal, plastic and wood.

Available in individual 2 oz. needlenose applicator bottles blister-packaged and peggable.

Please visit us at CHA Summer, Booth #6113 for more information. Available August 2006.
