Add Texture & Dimension to Your Mixed Media Projects

DINA WAKLEY MEDIA HEAVY BODY ACRYLIC PAINT

A new richly pigmented Black Heavy Body Acrylic Paint will round out the color selection of the current palette. For a touch of glitz, 3 new metallic heavy body paints will grace the Media color palette – Gilt (gold), Sterling (silver) and Penny (copper). All paints in the Media product line are richly pigmented and heavy bodied. They feature a thick buttery consistency that holds brushstrokes, peaks and tool marks but can also be easily smoothed. All Dina Wakley Media Paints blend well with each other to create an endless palette.
